PROGRAM DESCRIPTION
This program will provide an update on advances in colorectal cancer screening and surveillance, including an examination of the incidence of colorectal cancer in populations afflicted with inflammatory bowel disease. The program will also include an update on recent issues pertaining to infection control procedures for endoscopic devices.

LEARNING OBJECTIVES: After attending this program, participants will be able to:
1. Describe how quality metrics are evolving in colon cancer screening and surveillance.
2. Recognize the importance of colon cancer screening in patients with inflammatory bowel disease.
3. Identify risks for infection control failures in the reprocessing of endoscopic equipment.

CME CREDIT: CME credit is restricted to NYSGE members only. To join or renew, visit www.nysge.org. Membership is complimentary for fellows, but an application is required.

INTENDED AUDIENCE: Gastroenterologists, gastroenterology fellows, and others who work in the area of colon cancer screening, prevention, and diagnosis.

REGISTRATION: Registration is complimentary as a benefit of membership in NYSGE. However, online pre-registration is requested. To register, visit www.nysge.org and click on the program title under Upcoming Events. Members must login before registering. Non-members are welcome to attend up to two seminars per year. Non-members must create a user account before registering, or must log into a previously created account. Instructions are on the website. Contact info@nysge.org for assistance.
