Case-Based Discussions on Current Topics in Inflammatory Bowel Disease
January 21, 2015
6:00 pm – 9:00 pm

Bellevue Hospital Center
Farber Auditorium
462 1st Avenue (at 27th Street)
New York, NY 10016

PROGRAM DESCRIPTION
This program highlights current topics in the diagnosis and treatment of inflammatory bowel disease (IBD). Three lectures featuring case-based introductions will focus on therapeutic monitoring and treat-to-target in IBD, endoscopic tools in the diagnosis and management of IBD, and new agents for IBD management.

LEARNING OBJECTIVES
After attending this program, participants will be able to:
1. Recount the latest therapies for inflammatory bowel disease
2. Describe advances in endoscopy that pertain to managing patients with IBD
3. Determine when therapeutic monitoring is indicated in IBD

CME CREDIT
CME credit is restricted to NYSGE members only. To join, visit www.nysge.org. Membership is complimentary for fellows, but an application is required.

INTENDED AUDIENCE
Gastroenterologists, gastroenterology fellows, and ancillary staff who participate in the care of patients with inflammatory bowel disease

REGISTRATION
Registration is complimentary as a benefit of membership in NYSGE. However, online pre-registration is requested. To register:
Visit www.nysge.org and click on the desired program under Upcoming Events

Members must login before registering.
Non-members are welcome to attend up to two seminars per year.
Non-members must create a user account before registering, or must log into a previously created account. Instructions are on the website.
Contact info@nysge.org for help or questions.
